### **Aegis Capital Closes Financing for MedLink**

*New York, NY December 2, 2010.* MedLink, a leading provider of health information technology solutions, today announced that it has closed an aggregate of \$2.25 million in financing. Aegis Capital Corp, sole placement agent and exclusive investment banker to MedLink, placed \$1.0 million through a private placement, and an additional \$1.25 million in capital through the sale of convertible notes sold exclusively to institutional investors. The investment capital proceeds will be used to fund increased sales and marketing, working capital needs of the Company, and the acquisition of MedAppz which was announced earlier this month.

"We are extremely pleased to have the support of our investors who affirm our corporate vision, and the overwhelming interest in the offering is a testament to the MedLink team and the cutting edge technology we are providing to the healthcare market," said Ray Vuono, CEO of MedLink International, Inc. "With this financing, the company is well positioned to deliver its suite of Electronic Health Record (EHR) and Healthcare Information Technology communication platforms, to meet the increasing demand of the industry as healthcare facilities of all sizes are adopting EHR technology to take advantage of the efficiencies and the incentives both on a State and Federal level."

David Bocchi, Director of Investment Banking at Aegis Capital, said, "MedLink represents a rare and exciting opportunity in a competitive and consolidating space where it continues to demonstrate it has the tools and resources necessary to successfully become an industry leader." He added, "The management team was instrumental in swiftly securing the capital in a placement with overwhelming investor demand, and we look forward to providing the company with the continued support necessary to assist in its growth."
